| Moved the knight first. |  |  |
| Moved the pawn first. |  |  |

The player who did not use the castle move to protect their king opened the game by moving one of their pawns.

The player who wore a blue jumper moved the knight as an opening move. He wasn't the first player to take an opponent's piece once the game had commenced.

Four couples travelled to their wedding in a hired car. Once the wedding ceremony was complete, they went away on a honeymoon. You have to decide who married whom, what colour car and type of car they hired and where they went on their honeymoon.

1. Once married, Abid and his wife, Rebecca, did not travel to Paris together.
2. Aysha travelled to her wedding in a white Porsche. Once she had married the man who was not Hassan, she left with the man who was her husband to Paris.
3. Imran did not marry Javaria. However, Javaria loved green cars and had one for her wedding.
4. Hassan thought that red Lamborghini's were the best cars in the world. Once he had married, he did not go to Nairobi.
5. Rayhan did not hire the Ferrari. The couple that hired the Ferrari went to Hong Kong for their honeymoon.
