

Answers to gradients

a) 2

b) $\frac{-9}{10}$

c) 1

d) $\frac{-10}{14} = \frac{-5}{7}$

e) $\frac{10}{21}$

If you have got these all correct, well done. You need to look at finding the value of the intercept next.

If you have not got all these correct, you need to revisit this skill next time.
