

The map shows the position of three proposed fire stations on the outskirts of Bradford. These are each marked with red stars. Police Control, who answer all 999 calls, need to know which Fire Station needs to be activated in the event of any emergency.

Separate the area on the map into three different areas so that you can specify which fire station needs to be activated in the event of any particular emergency. (You will need to leave your construction lines in place for this). **(7 marks)**

Go over the boundaries for each area using a ruler and a pen, so that they stand out. **(4 marks)**

Using the initial capital letter to determine the actual location of the place on the map, specify the Fire Station which should be activated in the event of an emergency at the following locations:

- | | | | |
|----------------|---|---|---|
| 1. Woodside | A | B | C |
| 2. Bowling | A | B | C |
| 3. Birkenshaw | A | B | C |
| 4. Low Green | A | B | C |
| 5. Bolton | A | B | C |
| 6. Eastbrook | A | B | C |
| 7. Broomfields | A | B | C |
| 8. Haigh Fold | A | B | C |
| 9. Swain Green | A | B | C |

(9 marks)
