

1. The table below gives the weight of parcels for a delivery driver.

Weight $w$ kg	Frequency
$60 < w \leq 80$	7
$80 < w \leq 100$	11
$100 < w \leq 120$	14
$120 < w \leq 140$	15
$140 < w \leq 160$	13

- What is the modal class?
- Find the class interval that contains the median.
- Work out an estimate of the mean.
- Draw a frequency polygon of the data shown in the table.
